

Instrumentation and Control Society, Singapore

Tanglin P.O. Box 2008, Singapore 912499

Website: www.singics.org.sg

Email: admin@singics.org.sg

Instrumentation and Control Society (ICS) is a non-profit-making organization formed by individuals working in the field of instrumentation and control in Singapore and other South East Asian countries. Members consist of professionals engaged in oil & gas production, petroleum refining, pharmaceutical development, petrochemical processing, industrial IT, public utilities, plant and building automation, biotechnology research, engineering and design, manufacturing, and other like activities. ICS members come from various industrial enterprises, statutory boards and institutes like Shell, Senoko Power, Du Pont, ABB, BP Amoco, Pfizer, GlaxoSmithKline, China Instrument, Petrochemical Corporation of Singapore, PT Gunung Garuda, Yokogawa, Chiyoda, Chartered Semiconductor, PowerSeraya, Singapore Polytechnic, PWD, NUS, PowerGrid, etc.

Gain the professional advantage with ICS. The society provides members with access to the following benefits;

Professional Recognition

Professional membership into ICS is widely accepted as strong evidence of professional competence and recognition. ICS has established a sound presence and recognition in the Singapore and international instrumentation and control industries.

Networking & Contact

Take advantage of numerous opportunities to expand your circle of valuable business contacts. Activities like social events, short courses and technical talks provide you with avenues to interact with fellow ICS members and explore business opportunities.

Free Evening Talks

ICS holds regular evening talks to equip members with the latest technology and business occurrences in the various related industry. Come for the stimulating gatherings and explore important application topics and business best practices by well-known speakers.

Latest Industrial News

Be the most updated professional in the industry. ICS provides members with regular updates on technical breakthroughs and their business impacts. Learn everything that is critical about the latest technology trends, business practices and society happenings.

International Representation & Participation

The ICS plays an active role in global affairs by representing Singapore in the International Federation of Automatic Control (IFAC) and the Asia Pacific Federation of Instrumentation and Control Societies (APFICS). Members have the chance to participate in the various technical committees, working groups and other activities organized by these bodies to promote international understanding.

Conferences and Short Courses

ICS engages in a wide range of professional development activities to enhance members knowledge, the exchange of information, and to hear from leading figures in the control and automation industry. Conferences and short courses cover an extensive variety of subjects from technology-focused to skills-focused to management-focused areas. Improve and upgrade your professional knowledge and expertise with ICS!

Social & Recreation Activities

Every year, members are invited to the ICS AGM & Dinner and Dinner at special low rates. The Dinner not only commemorates milestones of the Society but also allow members to interact and share concerns in the industry. Members are also invited to the CEO Nights held regularly at the prestigious Tanglin Country Club. These events promote better understanding and exchange of business opportunities.
